DAFThub Doors

Housing Pack — Start Here

dafthub.nl/doors

Welcome to the DAFThub Doors Housing Pack.

This pack is the companion download to the DAFThub Housing Market Guide — a vendor-neutral strategy guide built for DAFT DIY reality. Every file here maps directly to a step in that guide.

The goal: you respond fast with complete paperwork and win the rental.

WHAT'S IN THIS PACK — AND WHEN TO USE EACH FILE

FILE	USE THIS WHEN...
Housing Strategy Planner	STEP 1 of the guide. Pick your strategy (temporary first / long-term first / less competitive area) and map your timeline.
Rental Proof Pack Checklist	STEP 2 of the guide. Build your proof pack before you contact any landlord or Makelaar.
Who I Am Summary (1-pager)	Goes inside your Rental Proof Pack. Replaces the 'employed by X' income evidence landlords expect.
Makelaar Interview Guide	Before you hire anyone. 10 questions to verify DAFT experience before paying a month's rent in fees.
Weekly Search Tracker	STEP 5 of the guide. Track every listing: contacted → viewing → offered → rejected. Don't manage this in your head.
Viewing Checklist	BONUS: Before and during every viewing. Noise, damp, heating, internet, registration status — check everything.
Move-in Admin Checklist	BONUS: First 72 hours after getting keys. Meter readings, DAFT_MASTER storage, calendar dates, gemeente registration.

THREE THINGS TO DO RIGHT NOW

1. **Read the Housing Market Guide first and reference for STEP 3 and STEP 4**
   dafthub.nl/daft-wiki/housing-market-guide
2. Open file Housing Strategy Planner and pick your approach. The three strategies have real tradeoffs — don't skip this step.
3. Build your proof pack using Rental Proof Pack Checklist before you apply to anything. Speed wins — but only if your pack is ready when you need it.
